

Our Bronze Tour is the right program for those who want to cross the Monte Rosa on low technical level; most of the time we will walk along glaciers and the summits we want to reach have no climbing difficulties. During these four days, we have the chance to summit some of the most popular peaks over 4000 meters of the area, including the P.ta Gnifetti where the Margherita hut stands.

**Program:**

- 1<sup>st</sup> day:** Meeting with the guide in Staffal around 13:30p.m. - Equipment check. With the lift system, we arrive at Colle Bettaforca. From there we start the nice walking to the Q. Sella hut. The last part of the trail follows a nice rock ridge equipped with iron steps and ropes. We overnight in the hut.  
 ↑ 3:30 hours - 850m
- 2<sup>nd</sup> day:** Departure around 6:00 depending on the period of the year. At the beginning, the Felik glacier is not too steep and it helps us to warm up the legs. We easily arrive at the beginning of the steep slopes that goes up to the Felik Pass. Arrived to that pass we finally reach the nice ridge that we follow until the top of Castore. The descent goes along the same itinerary.  
 ↑ 3:30 hours 650m ↓ 2:00 hours 650m
- 3<sup>rd</sup> day:** departure at around 6:00 depending on the period of the year. From the hut, we walk along the West Lys Glacier, just below the Lyskamm south face. We arrive at the base of the Naso del Lyskamm. Depending on the condition, we can climb it along the snow face or following the rocks on the left. From the top, we go down along a steep snow face to the Lys Glacier. We cross it in direction of the Col Vincent and the Piramide Vincent, our second 4000 meters peak of the day. From here, a gentle descent goes down to Rifugio Gnifetti, where we overnight.  
 ↑ 4:30 hours 950m ↓ 2:30 hours 880m
- 4<sup>th</sup> day:** Departure around 5:00 depending on the period of the year. We hike up along the Lys Glacier up to the Lys Pass (4260m), where normally we stop to eat and drink and to admire the great view. In front of us, the second part of the ascent with the Margherita hut looking still quite far. After a short descent, we traverse below the Parrotspitze and we start the last ascent to the Colle Gnifetti. From here the last effort to climb, the infamous “rivetto” and finally you stand on the balcony of the hut! The descent is along the same itinerary. Once back to Rif. Gnifetti we keep going down to P.ta Indren station where we take the lift down to Staffal.  
 ↑ 3:30/4:30 hours 950m ↓ 3:00 hours 1300m
