#### Why to Gressoney with the Heli Guides Group:

For more than 20 years, the team of Heli-Guides and Guidemonterosa operates, we love skiing, freeriding and we have been working in this industry for decades, at first-class heli-skiing locations around the world. Gressoney, our home base, has been the starting point of our story. We know what it takes to build an awesome heliski trip. Working exclusively with our Partners, Heli Guides and Guidemonterosa are able to provide tailor-made heli-skiing holidays, always maintaining our emphasis on flexibility and individuality. We focus on small groups in order to ensure high-end service. Our highly experienced IFMGA/UIAGM guides will select the best descents according to the snow conditions and your ability. Always keeping safety first, our goal is to help you fulfill your dreams and expectations.

#### Snow conditions:

Thanks to the altitude of the area and the weather influence from the south, the Monte Rosa massif experience heavy snowfall all winter long. From December to mid-March you can find here mostly powder snow conditions. Till early March we can still ski in mostly perfect condition.

#### Maximize your Heli-Skiing time with our small groups:

Small groups mean shorter waiting times between runs, so you can make the most of your time on the mountain. By using smaller, more agile helicopters, you can explore further and deeper into our majestic playground. We work with a maximum of 4 participants per mountain guide.

In Gressoney we can provide our guests a wide range of hotel categories from \* until \*\*\*\*.
