

Very interesting route that follow the South ridge of P.ta Giordani and Piramide Vincent and give you the chance to collect 2 peaks over 4000 meters in a day tour. The climb is never too difficult, but along the way, few steps require proper rock climb to be passed over.

Program:

1st day: Meeting with the guide in Staffal around 7:00a.m. - Equipment check. We will take the cable car up to Punta Indren. From here, we start to hike in direction of the old station and the Bors Glacier. We traverse this glacier until the base of the climb where normally we take the crampons off. We climb the first part of the ridge up to P.ta Giordani, looking for the nicer steps the ridge can offer. On top of Giordani, we make a long rest and after that, we keep going along the second part of the climb to reach the summit of Piramide Vincent. For the descent, we follow the regular route along the Lys Glacier.
